

FDA Authorizes First Point-of-Care Antibody Test for COVID-19

What does POC authorization mean?

This authorization means finger stick blood samples can now be tested in POC settings like doctor's offices, hospitals urgent care centers, and emergency rooms rather than having blood drawn to be tested in a central lab.

COVID-19 IgG/IgM POC RAPID TEST

Why authorize a Point-of-Care Antibody Test for COVID-19?

"Authorizing point-of-care serology tests will enable more timely and convenient results for individuals who want to understand if they have previously been infected with the virus that causes COVID-19."

COVID-19 IgG/IgM POC RAPID TEST

Benefits:

- Results in 15 minutes
- High accuracy
- Easy to use
- No equipment required

Features:

- Packing Size: 20pcs/Box,640pcs/carton
- Sample: Whole Blood/Serum/Plasma
- Testing time: 15 minutes
- Shelf Life: 24 months
- Storage Condition: 2 °C ~30 °C

Packing Contents:

- Tests
- Disposable pipettes
- Sterile safety lancet
- Buffer
- Package insert
- Alcohol Prep pad
